

## VEHICLE SAFE RANGE

The mobile, high security solution for businesses on the move.

If you handle cash, you are vulnerable to crime from the moment you collect your cash or valuables, to the time you deposit them in a secure location.

Now Safer Systems' Vehicle Safe range provides excellent protection against theft when transporting cash or valuables. Produced from high grade steel, the safes are easily installed into any vehicle, using standard tools. Once installed they allow route operators to deposit cash and other valuables quickly and safely, ensuring minimum disruption and delay to your schedule. The rolltop mechanism even allows for bulky items, such as cash bags, to be deposited without the need to open the safe, further reducing the risk of theft.

Don't let others pocket your profits. Protect your profits when they are most at risk with a vehicle safe from Safer Systems.

## V E H I C L E   S A F E   R A N G E

### S I M P L E   T O   U S E :
